(23) Any and all metadata associated with each image and/or file.

(24) Each and every ballot image file's filename unchanged from the filename generated by the voting system and linked to the corresponding cast vote record's filename.

(25) Each and every cast vote record file created, held, or used by you.

(26) Any and all metadata associated with each cast vote record.

(27) Each and every cast vote record file's filename unchanged from the filename generated by the voting system and linked to the corresponding ballot image file's filename, and provided in the format or formats in which they are maintained by the voting system and exported or exportable from the voting system.

(28) Any other list of vote records, including but not limited to, cast ballot logs and similar or related documents.

(29) Any and all computer event logs and computer logs for each individual voting machine in your county and for any computer involved in aggregating, storing, communicating, uploading, or serving as a repository for votes in the 2019 General Election.

(30) Any and all upload and download logs for all external applications and databases involved in the hosting, aggregating, tabulation, and/or serving as a repository for the official and/or unofficial results in the 2019 General Election.

The items requested related to item numbers 21 through 30 should not include any personally identifiable information. If any documents are withheld from production in whole or in part, please provide an exemption log index of each record or category of records that have been withheld or redacted, the explicit statutory citation exempting the records, and a brief explanation of how the statutory exemption applies to the records.

Thank you in advance for your prompt attention to this request for public records. Please contact me if you should have any questions. I look forward to your reply.

Very truly yours,

Jake Cox
